The diagram illustrates a baseball board game layout. It features a central path of bases: Home (HR), First (F#), Second (S), and Third (T). To the left of this path are the fielding positions: Pitcher (P#), Infield (DP), and Outfield (FO/FC). Each position is represented by a square box containing a die. The dice show various pips, indicating the current state of the game. A baseball icon is placed on the path between the bases. The layout is symmetrical, with bases on the right and fielding positions on the left.
